### Report of the Workshop on Start Speaking in English in 3 hours

Department of English organized a workshop on 09/09/2017 on the topic *Start Speaking English in 3 Hours*. The Resource Person was Shri Kotresh R. Founder-Director-Trainer –Author/Publisher who runs SS SET, An Institute of English since 2006 at Dharwad.

Dr. Sadhana G. Mathad, inaugurating the workshop said that English language is a hard nut to crack for our girl students as the majority of our students are from rural and Kannada medium. So it is really a great opportunity for the students to learn speaking English with short cut methods in 3 hours.

Shri Kotresh, the trainer, said that when he started learning English he took it as a challenge and learnt English in a very short period of time. Since then he is trying his best to come out with some short cut methods or ways of learning to speak English in short period of time. He challenged the students that if you have the will to learn English, you will definitely learn English and start speaking fluently in a short span of time. He explained the short cut rules writing them on the black board with examples. The students were stunned listening to him.

He further explained the situations where in we struggle to find suitable words and we fail. Mainly it is because of our thinking. He opined that we should think in English and speak in English, or create a situation similar to what you are facing and it becomes easy for you to speak. Grammatical rules are secondary whereas the suitable words are very important so we should increase our vocabulary by developing reading habit & reading English News papers, listening to BBC etc.

Later he invited the girls on the stage and gave them different topics to speak with the help of short cut rules that he had explained. The students felt it very easy.

The students expressed their deep sense of gratitude to Shri Kotresh for his easy method of teaching method of speaking English in 3 hours.

**40 HOURS SELF DEFENCE TRAINING PROGRAMME  
(06-09-2021 to 30-09-2021)**

**INTRODUCTION**

Self-defense is defined as the right to prevent suffering force or violence through the use of a sufficient level of counteracting force or violence. The ability to protect oneself physically from violence is a basic human right that should be reachable for everyone, including children and teenagers. Self-defense is an overlooked skill in our society, but it's significant. In an age when bullying in school is a huge problem, it's important to ensure that boys and girls can defend themselves in an appropriate way if the situation requires it. Self-defense techniques not only allows teens to defend themselves against physical attacks, it also has diverse benefits for students in their everyday lives. Hard work, loyalty, patience, as well as self-confidence are all important values and principles are implemented in the students and can help them to reduce stress and control aggressions for people of all ages.

Physical Self Defense can be categorized into two main groups : Armed and Unarmed.

**• Armed**

A wide vatriety of weapons can be used for the self-defense. The most suitable depends on the threat presented. The victim and the experience of the defender. In many cases there are legal restrictions. While in some jurisdictions, firearms may be carried openly and concealed expressly for this purpose, many jurisdictions have tight restrictions on who can own firearms and what types they can own. Knives, especially those categorized as switch blades, may also be controlled, as batons, pepper spray and personal stun guns and Tasers – although some may be legal to carry with a license or for certain professions.

Everyday object like flashlights, baseball bats, newspapers, keyrings with keys, kitchen utensils and other tool, and hair spray aerosol cans in combination with lighter, can also be used as improvised weapons of self defense. Since these techniques are subjected to legal aspects, they must be a final option.

• **Unarmed**

Many styles of martial arts are practiced for self-defense or include self-defense techniques. Some styles train primarily for self-defense, while other martial or combat sports can be effectively applied for self-defense. Some martial arts train how to escape from a knife or gun situation or how to break away from a punch, while others train how to attack. To provide more practical self-defense, many modern martial arts schools now use a combination of martial arts styles and techniques, and will often customize self-defense training to suit individual participants.

**IMPORTANCE OF SELF DEFENSE**

Nothing feels better than knowing you can take care of yourself mentally, financially, and physically. However for a lot of people, the physical part is just exercise. Being able to protect yourself in all situations is a confidence booster as much as it is a reassurance. A reassurance that can only be gained through any form of self defense classes. Today, when people think about self defense classes, they tend to think about women and children. However, self defense classes (and practices such as karate, boxing, jiu jitsu, ect. ), are for everyone.

- **It builds confidence**
- **It helps develop self-discipline**
- **It helps improve your physical conditioning**
- **It improves your street awareness**
- **It teaches you self-respect**
- **It helps to develop a warrior spirit**
- **It helps you develop a fighters reflex**

**IMPORTANCE OF SELF DEFENSE FOR WOMEN**

The world can be a dangerous place for girls and women, as they often experience violence. They're often perceived as easy targets – and while this may not be true, there is still a disproportionate amount of violence conducted against them. Many parents of girls and girls themselves are interested in learning how to protect themselves against violent situations, but they are often not sure where to turn. Our martial arts classes are a safe space where women of all ages develop mental and physical skills to defend themselves against attacks.

We believe that every girl is strong and has to become aware of this internal power. In martial arts, girls practice making judgments about allowing others into their personal space and experience what it's like to give and receive respect. By participating in our classes, girls develop confidence, better decision-making skills, and a stronger character. Self-respect is taught which allows girls to recognize situations in which they need to employ self-defense. Overall, there are many benefits teenager girls have from learning martial arts. Our programs help girls to develop their personality and grow into strong women.
