recruitment drives are safer and better opportunities for students to decide for campus placements. Most of the students preferred on campus recruitment because the students need not travel to other locations, instead companies approach them, which save time, energy and resources. Students have to develop following skills which are very essential for on campus recruitment.

- Develop the ability for quick learning
- Have good interpersonal and communication skills
- You should possess the ability to develop innovative solutions for any kind of barriers or administrative issues.
- You should be motivated to take risks and challenge over and above the job to develop creativity and dynamism.
- Cultivate problem solving skills for complex issues.
- Should be honest towards the work and imbibe work ethics.
- Develop team spirit for personal and professional growth.
- Build a good rapport with pleasing personality and friendly nature.
- Ability to take multi task to increase work efficiency.

Another resource person Shri. Santosh R. opined that conducting job interviews within various education institutions gives its students an opportunity to embark on their professional journey with esteemed organizations. Students, who are pursuing their degree, are eligible for such interviews. He himself contributed his own experience and sincere efforts with the students about the recruitment in reputed companies.

Final year students and staff participated in this programme. They gained very essential and useful information.
